PROFESSIONAL SUMMARY

Recent graduate with a Bachelor of Commerce in Finance and Economics from the University of Toronto, offering strong analytical and quantitative skills. I have hands-on experience in financial analysis, market research, and client relations. My expertise in using financial software to generate insights and support trading strategies complement my ability to interpret complex data and assess market trends.

WORK EXPERIENCE

External Relations Coordinator May 2023 - Jun 2024
IBA • Toronto

- IBA at UofT, serving over 1,200 Commerce and Management students, enriches experiences and bridges academia and industry through diverse events.
- Managed a recruiter database, provided career resources, facilitated student-industry interactions, and demonstrated strong communication through regular reporting and team meetings.
- Established and maintained relationships with leading financial industry experts and enhanced financial support for IBA initiatives through securing diverse sponsorships.

Investment Banking Analyst (M&A Team) May 2023 - Aug 2023
Raiffeisen Bank • Bucharest, Romania

- Mastered advanced data analysis and financial modeling software within two weeks, facilitating the execution of intricate analyses on mergers and acquisitions and the development of comprehensive financial models for potential target companies.
- Supported M&A transactions by developing robust financial forecasts and company valuations using DCF and LBO models, as well as conducting detailed comparable company analyses, and delivering high-impact presentations.
- Formulated data-driven financing strategies and delivered high-impact presentations to senior management and high-profile clients, effectively communicating investment opportunities and strategic transaction pitches.

Investment Analyst Sep 2021 - May 2023
University of Toronto Capital (UTMCAP) • Toronto

- UTM Capital, U of T Mississauga's first student-run investment fund, offers undergraduates premier asset management experience, finance industry exposure, and a network of ambitious peers.
- Conducted detailed company research, including financial performance analysis, competitive positioning, and strategic initiatives.
- Generated detailed reports summarizing economic trends, industry patterns, and investment recommendations, including visualizations and charts to communicate insights effectively.
- Collaborated with research analysts and investment leaders to develop and refine investment strategies aligned with portfolio objectives.

EDUCATION

Bachelor of Commerce (B. Comm) Sep 2020 - Jun 2024
University of Toronto • Toronto

- Specialization in Finance, Major in Economics.
- Focused on financial modeling, corporate finance, negotiations and investment analysis, particularly enjoyed courses in mergers and acquisitions, valuation, econometrics, micro & macro economics and financial markets.
- Developed strong analytical and technical skills through coursework and hands-on experience, excelling in weekly investment exercises and completing over 10 training's focused on managing investment portfolios.
- Completed valuation projects using DCF, Comparable Company Analysis, and Precedent Transactions.
- Developed comprehensive financial models for various companies, including revenue projections and scenario analysis.
