+40 723 518 056 | darien.wbr@gmail.com | Bucharest, Romania

EDUCATION

Bocconi University Milan, Italy
Bachelor in Science *September 2024 - June 2027*

- Score: 27/30
- Specialization: International Economics and Management
- Relevant coursework: Accounting, Financial Markets & Instruments, Statistics, Public Finance, Marketing, Basic Economic Law

WORK EXPERIENCE

National Bank of Romania Bucharest, Romania
Financial Markets Infrastructure Internship *June 2025 – July 2025*

- Drafted multiple reports on future outlooks on the central bank's monetary policy and the effects of the policies on Romanian companies and foreign investors
- Assisted in drafting risk and efficiency reports on Romania's core financial market infrastructures, covering systems which are handling over €100 billion in annual transaction volume.
- Analysed the regulatory classifications of asset-backed cryptocurrencies within Romanian financial markets, assessing compliance with EU MiCA and AMLD frameworks

EXTRACURRICULAR EXPERIENCE

PIMCO Prep Remote
Spring Insight *April 2025*

- Observed how PIMCO structures and communicates their investment ideas to clients, highlighting the emphasis on clarity and on the risk assessment of each investment
- Extracted key strategies used by top professionals within the company for pitching and advising across equities, bonds, and alternatives
- Gained insight about the edge that PIMCO has over other buy-side companies, like their huge data access and the ability to synthesize it efficiently through macroeconomic models and the tactical execution of those investments

Susquehanna International Group Remote
SIG Discovery Day *April 2025*

- Participated in a discussion, analysing current market trends and projected future market shifts following the announcement of new US tariffs, focusing on specifics sector impacts and investor sentiment.
- Developed a strong understanding of the responsibilities of an equity researcher, operations trader, and the technological and development side of SIG
- Explored the role of quantitative trading, in particular how data-driven strategies and trading models are developed and constantly tested in order to capitalize on market inefficiencies

The Young Investment Banker Summer Experience London, United Kingdom
Summer School *July 2022*

- Delivered 20% portfolio return in simulated trading competitions, applying strategies across equities and commodities
- Built discounted cash flow models for BMW, Apple, and Huawei at InvestIn London and presented my forecasts in front of senior investment bankers
- Delivered a pitch to investment bankers on possible M&A targets
