Subject: Application for Investment Banking Summer Internship

Dear Hiring Manager,

I am excited to apply for the Investment Banking Summer Internship at PCF. Investment banking has long been my area of interest, as I am drawn to its dynamic nature, problem-solving challenges, and impact on financial markets. As a student of Sustainable Finance at West University of Timișoara, I am eager to apply my financial expertise and analytical mindset in a fast-paced, deal-driven environment. Given PCF's strong reputation in M&A, capital markets, and financial advisory, I am particularly enthusiastic about the opportunity to gain hands-on experience within your investment banking division.

My passion for finance is backed by both academic and practical experience. Since July 2023, I have been conducting research on climate change and sustainable development, analyzing the economic impact of environmental policies on financial markets. This has strengthened my ability to interpret macroeconomic trends, assess investment risks, and work with large datasets—skills that are crucial in investment banking. Additionally, during my two-month internship at UniCredit Bank, I gained exposure to corporate finance by assisting in credit risk analysis and financial modeling for client portfolios. This experience deepened my understanding of banking operations and enhanced my technical skills in financial analysis.

Beyond my technical expertise, I thrive in high-pressure environments that require collaboration, strategic thinking, and adaptability. Whether working on financial case competitions or research-driven projects, I have demonstrated strong teamwork, problem-solving abilities, and an analytical approach that aligns well with investment banking's demands.

I am particularly attracted to PCF due to its strong deal flow, innovative approach, and commitment to excellence in financial advisory. The firm's involvement in advising Rodbun Group and Vox Property Group further solidifies my enthusiasm for joining your team. I am eager to contribute my analytical skills and financial knowledge while gaining exposure to complex transactions and high-impact financial solutions.

I would welcome the opportunity to discuss how my background and passion for investment banking align with this internship. Thank you for your time and consideration—I look forward to your response.

Sincerely,
Nikola Marković
